ABOUT US

South Carolina Home Health Care we understand that the effects of aging are not easy on families, as well as the person who is experiencing the challenges. Our Commitment is to provide families and their loved ones with a certified and professional care attendant that will provide them quality care. Our staff understands the challenges when their loved ones age and know that the family members will need the support and assistance of a caregiver. Our promise is to provide you and your loved one (s) with support, answer any questions that you may have, and also be a resource to give information on additional services you may need. Our top priority is to ensure each of our clients has a warm transition during this time. We are serving our community to promote healthy living.

South Carolina Home Health Care is a non-medical home healthcare service that offers care giving services for the disabled or elderly clients. With our dedicated Personal Care Attendants, we specialize in promoting healthy living and improving quality of life. Our Personal Care Attendants assists individuals with Personal Care so that our clients and their loved ones can enjoy life and continue to have a vibrant lifestyle they are accustomed to. Our Care Plans are customized to cater to each individual to match their needs. Our staff is thoroughly trained and insured.
